### CHARGING YOUR Wristalk

**NOTE:** Please ONLY use charger supplied with your Wristalk

1. Insert the supplied USB cable (small end) into Wristalk
2. Connect USB large end to power supply
3. Plug charger into approved outlet
4. Charger will charge Wristalk, and the RED indicator light located on the face of your Wristalk will go off when fully charged (approximately 30 minutes from low battery to fully charged)
5. Please fully charge Wristalk before turning on and using for the first time.

### Pairing the Wristalk with a Bluetooth - capable cell phone device

First, prepare your cell phone for Bluetooth operation. Read your cell phone operating instructions to understand your pairing procedure. When prompted, enter password 0000 (refer to COMMANDS CHART). Once your cell phone is prepared to accept a Bluetooth device, press Wristalk multifunction button until **Power-On** is heard. Continue pressing this button until you also hear the word **Pairing** spoken through the speaker. Now, confirm that your cell phone is paired by following your cell phone instructions. Once paired, touch Wristalk button again, and the voice will say **connected**. You are now ready to use Wristalk to make a call or answer a call through your cell phone using your new Wristalk.

### Turning Wristalk OFF

When power is already on, press the multifunction button and hold until voice speaks **Power OFF**.

### Turning Wristalk ON AFTER Pairing

Press the multifunction button and hold until voice speaks **Power ON** (blue light will flash).

### Introduction

Your new Bluetooth Hands-free Wristalk will provide the mobility and hands-free cell phone communication for added safety and convenience. The main functions of your new Wristalk are:

- Simple one button operation
- Wireless Hands-free call answering with outgoing calling feature included
- Caller ID announcement feature (speaks to you in pleasant voice)

Please read carefully and understand your new Wristalk User Guide before first use.

NOTE: Visit [www.wristalk.com](http://www.wristalk.com) for additional information on features and operation of your new Wristalk Bluetooth SpeakerPhone Wristware.

Wristalk uses Bluetooth wireless technology.

Wristalk is specially designed to be compatible with most Bluetooth-compatible Cell Phones that support the following profiles.

(Profile is a set of Bluetooth commands that your Bluetooth-enabled device uses to control Bluetooth-enabled electronics.)

- Hands-free profile

The Bluetooth technology makes it possible to connect communication devices without using cables. The Bluetooth wireless connection to your cell phone will remain connected up to approximately 30 feet, depending on environmental conditions (walls and other electronic devices in the area).

Wristalk is compliant with and adopts the Bluetooth Specification 2.1

### Limited Liability

The manufacturer, distributor and/or dealers are not responsible for any accidental damage including bodily injury or any damage resulting from misuse or unsuitable operation of Wristalk by the user of this product.

2

### Answering a Call

A new **incoming call** will be announced through the Wristalk speaker as a **verbal caller ID phone number (a voice will speak the number)**. Press the multi-function button once to answer the call. You may also decide to ignore the caller and not press the multifunction button which will allow the call to go to voice mail.

### Ending a Call

Press the multifunction button **once** to end your call.

### Making a call: Voice Dialing or Cell-phone Dial Pad

With Wristalk turned on and already successfully **PAIRED** to your cell phone, Wristalk is now in the **stand-by mode** and ready to answer calls or initiate new calls. To initiate a new call from stand-by mode, press the multifunction button once. You may hear **Say a Command** if your cell phone has voice dialing. Then say: "CALL xxx xxx xxx". (only applies if your cell phone service includes voice dialing feature).

To make a call without using voice dialing feature, simply touch the multi-function button once and dial your phone number using your cell-phone dialing method.

**NOTE: Please refer to complete list of operating commands, in the COMMANDS CHART located in this User Guide for your convenience.**

### Guidelines for your safety

Before use, please read the warnings and other information in this manual.

Please check for any information on RF exposure in usage of a Bluetooth-enabled product.

When your Bluetooth Wristalk is turned on, it transmits and receives radio frequency electromagnetic fields in the frequency range 2.402 ~ 2.480 Ghz. Your Bluetooth wristalk is designed to operate in compliance with the RF exposure guidelines and limits that are set by national authorities and international health agencies when used with any compatible devices.

[Wristalk]

**1** Please do not operate Wristalk while charging its [internal] battery. TURN OFF Wristalk before charging)

- Do not touch your Wristalk and power plug with damp hands.
- Do not kink or crease the power cable or place heavy objects on the power cable.
- Unplug the adapter during electrical storms.
- Do not overload a single power circuit.
- Use only the supplied adapter.
- Unplug adapter when it's not in use.
- Immediately power off the Bluetooth Wristalk and the power cable if water or other liquids are present.
- Immediately power off the Bluetooth Wristalk and unplug the power cable if smoke or odors emit from the Bluetooth Wristalk or power cable.
- Keep the Bluetooth Wristalk dry. Humidity and all types of liquids or moistures can cause harmful interface with electronic circuits.
- Do not use harsh chemicals, cleaning solvents, water or strong detergents to clean the Bluetooth Wristalk. To clean external surfaces, use a clean dampened cloth.
- Do not use excessive force on the buttons or attempt to disassemble the device.
- Do not drop or subject the device to impact.
- Do not paint the Bluetooth Wristalk. Paint can clog the moving parts and prevent proper operation.
- Keep the Bluetooth Wristalk away from strong magnets.
- Do not disassemble or modify.
- Keep all accessories out of the reach of small children.

[Battery]

Your Wristalk is equipped with a high-performance Lithium Ion battery. Please observe the maintenance guidelines below and your battery should give a long service life.

- Use batteries and chargers provided by Wristalk. ( battery not replaceable)
- Avoid charging in strong heat or extreme cold. Ambient room temperature is preferable.
- Never try to open the battery as it contains substances that might be harmful if swallowed or allowed to come into contact with unprotected skin.

(Battery not replaceable..Please do not remove from Wristalk for any reason)

3

**FCC Information**

This device complies with Part 15 of the FCC rules.

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received; including interference that may cause undesired operation.

**Federal Communications Commission (FCC) Statement**

This Equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user authority to operate the equipment.

Tested to comply with FCC standard. FOR HOME OR OFFICE USE.
